

# SSERC Technicians' Conference

Would you like to come along to SSERC in Dunfermline for a day of hands-on free professional learning specifically designed for technicians? Then the SSERC Technicians' Conference is for you.

The conference will take the same form as the previous one with a series of 1-hour long training sessions spread throughout the day. The sessions will cover aspects of the job that our other professional learning courses don't. You will also have the opportunity to network with other technicians from across the country.

Information about how to apply will be available in early 2022.

The sessions from the previous conference included -

- Soldering
- Welding
- Basic electrical theory
- Tool sharpening
- Microscale Chemistry
- Basic Glass work
- SSERC equipment safe use.

Hope to see you there!

If you have any suggestions for future training sessions, send them to [alan.purves@sserc.scot](mailto:alan.purves@sserc.scot).
