

# Spotlight on STEM Ambassadors

STEM Ambassadors are employees and students working in STEM-focused roles who volunteer their time to help engage and inspire the next generation of learners.

Whether it's running a workshop, judging a STEM competition, or giving a careers presentation or Q&A, STEM Ambassadors help to bring STEM to life in the classroom.

We have thousands of Ambassadors available throughout Scotland, specialising in all areas of STEM.

To give you an idea of just some of the people you and your learners could engage with, we regularly spotlight Ambassadors on our [website](#), highlighting their day-to-day jobs and the paths they took to a career in STEM.

Not only do these articles give an idea of the Ambassadors we have on board, but they can also be used as a tool to discuss career options with learners.

Our latest spotlight, Emily Southworth, is a PhD student at the University of Edinburgh Institute of Genetics and Cancer.

## Arrange a STEM Ambassador visit online or face-to-face

Follow these simple steps to request a STEM Ambassador to be involved in your setting.

**Login or register on the STEM database** at [www.stem.org.uk](http://www.stem.org.uk) and add an activity, giving as much detail as possible about what you would like the Ambassador to do – then we will do the rest.

When you add an activity, Ambassadors can get in touch to register their interest. We also promote the activities through

our communications with our volunteers to help you get the right person for your request.

More information on requesting Ambassadors can be found in our [Teachers' Guide to STEM Ambassadors](#).

## Ambassador offers

Not sure how you would like a STEM Ambassador to help? Find out what STEM Ambassadors can offer you.

Many of our Ambassadors have created examples of presentations or workshops they are willing to deliver to help you engage with them.

To browse our offers and get in touch with the relevant STEM Ambassadors, log in to our [website](#) and visit [browse offers](#). <<
