Digital skills at SSERC

We are delighted to report that, with support from the government, we are able to deliver digital skills training across both primary and secondary sectors. A new Digital Skills Education Officer is in post and with the support of the Digital Team in Education Scotland, we have been able to offer a range of digital skills courses.

The courses are:
- Enriching Opportunities across the BGE - Early and First.
- Supporting Literacy and Language using Digital.
- Computing Science - Building and Testing Computing Solutions using Block Based Coding.
- Laying the foundations of Computing Science - Early and First.
- Computing Science: Enriching Opportunities across the BGE (3rd and 4th Level).
- Discovering Micro:Bits across the BGE.
- Reaching all learners using Digital tools.
- Supporting Learning using Rich Media.

In addition, we have been delivering external professional learning sessions in partnership with, and for, Education Scotland, Universities and Local Authorities.

During 2019/2020 we plan to increase the number and variety of courses and programmes offered in this important area of the curriculum.

Here is a link to our session catalogue for 2019/2020: https://sway.office.com/pL26C8sZQCGHlhNF?ref=Link. ≪

"I loved the mix of information transmission, hands on playing and exploring and sharing of ideas and good practice. Being pointed in a direction for books and apps that are of high quality is invaluable when there is so much choice available. It's great to have time to give things a go so you can really imagine how it might work in your setting. I have also come away with nice videos, quotes and ideas to share with my staff to inspire them!"
Enriching Opportunities in Computer Science, Early and First Level
